PATEK PHILIPPE: prestige and beauty in three volumes

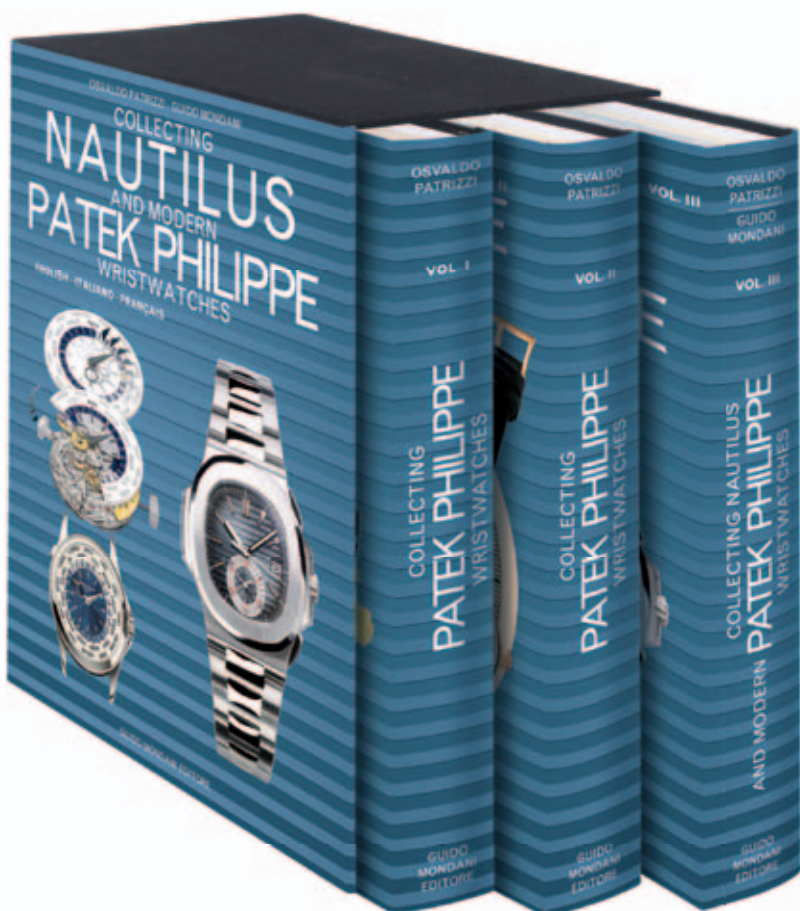

Guido Mondani and Osvaldo Patrizzi, two of the most important names in the field of horology and both great Patek Philippe experts and collectors, took care of this edition, which represents the most complete and ever created work on Patek Philippe. More than 2000 images of watches, 3 volumes in an elegant slipcase, 960 pages, more than 600 full page images, texts in English, French and Italian. This publication gathers the most important steps of the history of Patek Philippe and represents a safe guide to discover every detail of this brand: prices, market evaluations, different cases, dials, hands and the evolution of the style. Here you can find the valuation of every watch, directly realized by the authors Guido Mondani and Osvaldo Patrizzi. Through this work they allow collectors to understand the market of Patek Philippe wristwatches, turning their passion into investment. Among the topics of this book: Moon Phases, Perpetual Calendar, Annual Calendar, Split-Seconds, Minutes Repeating, Calatrava, Universal Hours and a whole boon on Nautilus. The goal of this edition is to give collectors and enthusiasts every information they need to have a wide knowledge on Patek Philippe wristwatches and understand the real meaning of their value and their beauty.
