

ROLEX GMT-MASTER: the book

Guido Mondani Editore
Guido Mondani and Lele Ravagnani
320 pages
cm 25.5 x 31.5
English and Italian versions
ISBN: 978-88-903723-4-6

After the great success of the first edition “Collecting Rolex GMT-MASTER wristwatches”, now sold out, Mondani Editor has decided to publish a second version which also presents the models produced in recent years, in order to give the information which has become essential today for buying and selling GMT-Master watches and to improve the contents of the preceding edition.

Some of the questions a collector asks himself nowadays are:

- are the aluminium bezel inserts of the ref. 6542 coeval?
- Is there a way to know if the bezel has been replaced?
- the ref. 1675 in stainless steel has been created with the possibility to fit two bezels: red/blue and black?

Thanks to the in depth study, this edition helps to dispel these doubts.

“Collecting Rolex GMT-MASTER Wristwatches” also offers a widening of those references which have always been objects of desire of enthusiasts and collectors, such as the refs. 6542, 1675, 16750 and many others.
