Finally the book entirely dedicated to this model has arrived:

MOONWATCH ONLY.

A very useful guide to know everything about Omega Speedmaster watches; a book to collect, invest, buy, sell and trade.

The book shows every single model, from the ref. CK 2915 until the modern watches, from the standard production to the limited series and prototypes. In the last pages the authors give important advices on where and how to buy, how to choose and how maintaining the watch in mint conditions.
