Bound with dust jacket.

Price: 390 Euros

Available at Guido Mondani Editore

Guido Mondani Editore created a new updated edition entirely dedicated to Rolex SUBMARINER, SUBMARINER DATE, SEA-DWELLER and DEEPSEA models.

With more than 800 high quality images, this book is a true help in the watch market. Rolex Submariners became fashion and collectable items and there are many things to know about this model.

All references are described in detail and all those small details that create big differences in the value of the watch, will be revealed. Some of these details are the inscriptions, the evolution of the dials, the hands, the bezels, the case back, the crowns, the bracelets, the caliber and muc more.

Attached are the estimates of all all published watches.
